Latest Project:

Seed & Feed

- A modern, scalable garden-planning app and recipe finder made with the new gardener in mind.
- A full-stack webapp built with Java, Spring, JavaScript, our own basic API and multiple APIs from the web.
- A team project wherein we made a plan, broke it into achievable goals, and demonstrated a mastery of core concepts.

Experience:

General Preventive Masonry Restoration - Cleveland, OH/Remote

Freelance Web Developer

April 2022 - Present

- A marketing/sales based website for a locally owned business; in progress.
- Better understood a process for pair programming, especially that in a creative environment.
- Core functionality includes JavaScript dynamic population, email forms to the company, etc.

W.C.C.I. - Cleveland, OH

Full-Stack Software Development Student

January 2022-April 2022

- Graduated from a coding boot camp after becoming proficient in Java, JavaScript, and more.
- Completed a host of projects to ensure my understanding of abstract, foundational topics.
- Built a network of lifelong learners on which I can lean for support.

Burntwood Tavern - Chagrin Falls, OH

Server/Bartender

April 2021-January 2022

- Assured cohesion between the front and back of house staff.
- Treated guests to prompt and attentive service.

Renewal by Andersen - Middleburg Heights, OH

Retail Service Representative

April 2018 - April 2021

- Managed on-site I.T. issues and lead the team through any updates, errors, or large-scale communications.
- Coordinated 50% of all window installation contracts' timelines in the Cleveland branch.
- Developed new and existing SOP's to increase employee efficiency.
- Collaborated with customers and management teams to work through customer issues in a timely manner.

Proximity Marketing Supervisor

April 2016 - April 2018

- Lowered the cost per lead issued to the company by 50%
- Managed myself and a team of 5-8 canvassers directly.
- Recruited, trained, and retained a team of field agents.

Proximity Marketing Representative

April 2015 - April 2016

- Generated leads by going door-to-door and using soft skills to help potential customers identify issues.
- Connected with homeowners about any services we might have been able to provide.
